Educating Learners with Combined Vision and Hearing Loss during COVID-19

The field of deafblind education places a high value on interaction, closeness and hands-on learning. During a time of school closures, distance and virtual learning can seem like a mismatch for our unique and diverse group of learners.

The Arizona Deafblind Project acknowledges

- Most of us are dealing with an overwhelming amount of incoming information
- New formats for learning will take time and patience
- We can try and do a little when we feel ready
**Tip of the Week Activities for CVI Learners**

*Little Bear Sees* reminds us *Cortical Visual Impairment* (CVI) is a term used to describe visual impairment that occurs due to brain injury. We’ve gathered just a few activities specific to children and youth with CVI.

Keep in mind activities are most accessible and meaningful when they are tailored through consultation with service providers who have background in CVI assessment and instruction.

**Apps and more Apps!** Tablet devices offer backlighting features that many children and youth with CVI and Low Vision are drawn to.

![Tap the Egg For a Big Surprise](image)

*Light Boxes* can be a motivating activity for children with CVI and Low Vision. There is a [Do-It-Yourself parent blog](#) for anyone who wants to build their own light box. You can also turn an iPad into a Light Box for 99 cents. Looking for some different activities to try out with the Light Box? Let’s [dive down the Pinterest hole, shall we?](#)

Videos

Alissa DeSousa has a YouTube Channel with many CVI friendly Stories in video format. Thanks to our friends at Paths to Literacy for the original post! [Image: Screenshot of a youtube video, all black background with white letters outlined in red that reads “The Itsy Bitsy Spider.”]

You might also be interested in reading Diane Sheline’s blog, including downloadable templates for CVI-friendly books at various phases or brushing up on CVI Characteristics with Dr. Christine Roman through this Perkins Webcast.

Free Resource!

The Described and Captioned Media Program currently offers access to over 8000 high-quality captioned and audio described videos for registered users. Check out the “old” Bravo series of ASL instruction as well as thousands of other offerings accessible to students with sensory impairment. And thanks to Tina Feldman at ASDB-Tucson Campus for the reminder about this resource.

[Image: Screenshot of a series of media clips for beginning ASL videocourses including “Meet the Bravo Family, Breakfast with the Bravo Family, Where’s the TV Remote? And Let’s Go Food Shopping!”]
“I don’t know about you, but I struggle all the time these days to make sense of the world. Imagine if no one could explain to you why you suddenly couldn’t see your family — or were stuck with them 24/7. Why you couldn’t go on a trip you’d been planning for or even leave the house.”

Amy Silverman, journalist and an Arizona mother of a 17 year-old daughter with Down Syndrome, asks others to imagine what it would be like if no one could explain to you why a pandemic has completely changed your life. She writes about the experiences of several families with young adults with Intellectual Disabilities.

If you have needs the newsletter does not address, Deafblind Project Specialists can be available by phone or through video conference during school closures in Arizona.

Pat Jung, Deafblind Specialist Maricopa County at Patrice.Jung@asdb.az.gov or 602-568-1944
Amy Trollop, Deafblind Specialist Maricopa County at Amy.Trollop@asdb.az.gov or 480-662-2657
Megan Mogan, Deafblind Specialist Statewide except Maricopa County at Megan.Mogan@asdb.az.gov or 520-260-2499
Heather Joy Magdelano, Family Engagement Coordinator Statewide at azdbparent@gmail.com or 602-300-5136
Lisa Yencarelli, Project Director at lisa.yencarelli@asdb.az.gov or 520-833-8244.
