Monthly Updates

Monthly updates are compilations of email announcements, upcoming webinars, new resources, and other important notices for state deafblind project personnel. You will receive an email alert when a new update is posted (around the 10th of each month).

NCDB Website

The For State Deafblind Projects section of the NCDB website is a centralized location for information on TA tools, NCDB support, state project management resources, and how to connect with others in the network. These are public pages that do not require you to login.

Basecamp

NCDB uses the State Deafblind Project Basecamp group to post documents and other resources that are not intended for the public (e.g., draft documents, webinar recordings, materials created just for state deafblind project personnel). You must be logged in to access this group.

Optional News/Event Messages

Visitors to the NCDB website can sign up to receive email alerts when news and events are posted. ***Subscription is not required for state deafblind project personnel. You will receive any important announcements as described under "Email Announcements" above.***
