**“Touch Stimulation” By Roberto Cabrera**

**February 23, 2023**

**10:00am-10:45am (PST)– Presentation**

**10:45am-11:15am (PST) – Live Q & A**

Touch stimulation is way of proceeding information via touch. It may be overloaded or underloaded. The workshop is to explore how our brain functions when proceeding information via touch. The workshop will be an open space for everyone to ask any questions regards to touch stimulation. CEU's available.

**Registration link: Cost: \$25.00**
